

Figure 1 is a block diagram of a system 10. The system 10 includes a processor 40, a memory 50, and a network interface 60. The processor 40 is connected to the memory 50 and the network interface 60. The memory 50 is connected to the network interface 60. The network interface 60 is connected to a network 80. The network 80 is connected to a server 85. The server 85 is connected to a database 90. The database 90 is connected to a user interface 95.
